## Details

The SHA-512 hash, serving as the unique digital fingerprint of the file, has been permanently recorded on the blockchain through the transaction provided above.

To verify the authenticity of a file, you can:

1. Retrieve the file hash from our verification portal at <https://hash.nftnotary.io>
2. Generate the file hash locally using any SHA-512 hashing tool

Then compare this hash with the one recorded on the blockchain to confirm the file's integrity and ownership.
